## A VIEW OF THE POSTAL HISTORY OF THE MALAYAN EMERGENCY.

By Susan McEwen.

This book is about the Postal History of Malaya during the Emergency but not in the classical sense of routes and rates. Rather this is a history of what was happening in the geographical area known as Malaya from 1945 when the Japanese Occupation ended until 1965 when Singapore left Malaysia.

Shown by Postal History in the broadest sense of the expression, using covers, ephemera, stamps, and slogan postmarks.
