

## Stamps - General

The following five lots (plus 3 Singapore lots) are from an unusual collection of Commonwealth coil stamps, coil joins and coil leaders mainly from the 1950s and later that were sold by Cavendish Auctions in 2003. It is thought that they were acquired from new issue sources as they appeared but current vendor states that ".....apart from the items from this one collection he has seen no others" so they appear to be very scarce items.

The 1957 State definitive stamps are discussed and requisition details provided by Len Stanway in his magnum opus 'Malaysia & the Federation of Malaya' volume 1 chapter 8 pages 12 & 13. De La Rue specially printed the 10c stamps in 1961 to 1962 and supplied them to Harrison who produced the rolls. Apart from mention of a dealer offer in 1965 of coil strips of 5 (erroneously advertising Pahang instead of Penang) there are no other reports noted, that tends to support the scarcity factor suggested.
